

9/7/2018

Dear Alison,

At the end of June my wonderful husband, Gwyn Rees, sadly passed away, due to pancreatic cancer.

For a number of weeks prior to his death Gwyn received wonderful care from your District Nurses. Whatever the time of day or night these nurses were always so compassionate, so gentle and so kind — not only to their patient Gwyn — but also to his family.

We shall never forget them. We cannot thank them enough for all the time they devoted to Gwyn. You must be extremely proud of your District Nurses — they are all very special people and they help to make a very difficult and emotional time a little more bearable.

With Heartfelt Thanks

Madeline (Rees)

Stuart and Gareth.

(Gwyn's family)
